Forecast for Saturday 21 May 2022

Weather: Clear spells and intermittent lower cloud through the early hours with cloud building more widely during the morning. Some bright and sunny spells developing during the afternoon. Staying largely dry but with the chance of occasional, mainly light, showers. Clear spells continuing into the evening.

Chance of cloud-free hill tops above 600m: 40% to begin, rising to 70% for the afternoon.

Low cloud and visibility: Scattered cloud forming around 500m in the early hours, particularly on western slopes, giving misty conditions at times. Cloud largely above the summits by day and providing good visibility, but very occasionally falling to 400-500m in association with any showers, which will bring short periods of poorer visibility.
